

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

of Nutrition; the dominion of the three Humors in the Body of Animals, *viz.* the *Gall*, the *Pancreatick Juyc*, and the *Saliva*, and their Mixture, either immediate or mediate, with the Blood returning to the Heart; as also their great influence, when they are vitiated, in disturbing the Effervescence of the Blood, as well as their power and vertue, when they are temper'd together in a due proportion, to cause a regular motion in the blood, and to convert meat into good nourishment: Farther, about the Change of the Chyle into Blood, and where that change is begun, where advanc'd, and where perfected: About the alteration made in the whole body of Animals by the Spermatick *Aura*, as to their Voice, fatness, sweetnes, &c. About Respiration, and how that may cease for a while in *Syncope's* and *Hypochondriacal Suffocations* without death; about Sneezing, the Hickocke, Yawning, Pandiculation, and their Causes: The alteration, which the blood of the left Ventricle receiveth in the Lungs by the inspired Air, and the *Saliva*, or some other glandulous liquor: Of the Pulse; of the Plenty of Animal Spirits and its cause; of the return of Feaverish fits by intervals, together with the cause thereof, &c.

F R R A T A.

Upon a second and more leisurable perusal of some of the former *Transactions*, there are found left the following faults, of which some may be so material as to prejudice the sense; *viz.* p. 641. l. 1, 2, 3. the Author of the Book, there spoken of, thinks it more suitable to the tenor of that Book, to change those words, *A new method analytical for giving the Aggregat of an infinite or indefinite converging Series, into these, A new method Analytical, whereby in general he gives the termination of a converging series conditionally, and in two particular cases does the same absolutely.* Compare N. 37. p. 734. l. 27. et seq. Besides, p. 654. l. 24. leg. MDCLVIII. p. 725. l. 22. for *70 oids* r. 70. Combs. p. 746. l. 24. *tam aperte*. p. 749. l. 6. *ducatur pro dicatur* p. 750. l. 9. *ang lum solidum*. l. 20. *Est quidem*. p. 754. l. 32. *elegantis*. p. 755. l. 31. 0,000485203, —. p. 756. l. 1. AHGN. p. 758. l. 11. *caplana*. ibid. l. 20. 83b¹, &c. ibid. l. 23. *compientes*. ibid. l. 28. ADEJ. p. 764. l. 8. leg. \equiv oLo, numerus. p. 778. l. ult. seu p. fin. Some literal and Grammatical faults, as *quadratura pro quadrat:ra*; p. 753. l. 12 *homogencorum pro homogenearum*, p. 778. l. 39. and such like, the Reader will be pleas'd to mend himself.
